PROFESSIONAL SUMMARY

I'm a Computer Science graduate from Taibah University with hands-on IT experience in government digital operations, including a training program with Madinah Municipality's Digital Transformation Agency, where I contributed to website development, produced database reports using Oracle and SQL Server, supported system analysis efforts, and managed user accounts through Active Directory. Alongside that, I'm a self-driven software and AI developer: I independently designed and built two full production-grade systems — a multi-agent RAG platform and an AI-powered job-market analysis tool — and hold AWS Certified Cloud Practitioner and AWS Certified AI Practitioner certifications. I'm also professionally accredited as a Specialist by the Saudi Council of Engineers (SCE). I'm currently looking for new opportunities to grow as a developer in a professional team environment, contributing to Saudi Arabia's Vision 2030 digital transformation goals.

CERTIFICATIONS & LICENSES

- **AWS Certified Cloud Practitioner** — Amazon Web Services (AWS) (Sep 2026)
- **AWS Certified AI Practitioner** — Amazon Web Services (AWS) (Sep 2026)
- **Oracle Fusion Cloud Applications HCM Process Essentials Certified — Rel 1** — Oracle (Sep 2026)
- **Oracle Fusion Cloud Applications ERP Process Essentials Certified — Rel 1** — Oracle (Sep 2026)
- **Oracle Fusion Cloud Applications SCM Process Essentials Certified — Rel 1** — Oracle (Sep 2026)
- **Oracle Fusion Cloud Applications CX Process Essentials Certified — Rel 1** — Oracle (Aug 2026)
- **AI Agents Engineering Bootcamp — 21 hrs, project-based** — Hash Plus (Jul 2026)
- **Membership of Assistant Engineer (Specialist)** — Saudi Council of Engineers (Feb 2025)

PROJECTS

Mizaan — Saudi Labor Law AI Assistant

2026

- Designed and built a multi-agent, retrieval-augmented generation (RAG) system that answers Saudi labor law questions in Arabic, grounded in the Labor Law, Executive Regulation, and HRSD guidance, with article-level citations and confidence scoring.
- Indexed 245 law articles into 411 searchable chunks using Qdrant vector search, BGE-M3 embeddings, and BM25 hybrid retrieval; orchestrated a 5-agent pipeline with LangGraph.
- Built an employment-contract compliance analyzer that produces clause-by-clause compliance reports.
- Developed a bilingual (Arabic RTL / English) React + TypeScript frontend and a Python/FastAPI backend, containerized as a 7-service Docker Compose stack; reached 97.4% citation accuracy on an internal evaluation harness across all 9 project milestones.

CV Tailor — AI-Powered Job Market & Resume Platform

2026

- Built an Arabic-first, RTL web platform that helps job seekers optimize resumes for Applicant Tracking Systems (ATS): parses and rewrites CVs for ATS compatibility while preserving factual accuracy.
- Implemented ATS match scoring, keyword gap analysis, live job-market search, and skill-gap mapping, plus automatic tailored cover-letter generation.
- Built with Next.js 16, React 19, and TypeScript 5, with a provider-agnostic AI layer (OpenRouter, Gemini, Anthropic) and Word (.docx) document export.

Graduation Project: Java-Based Reservation Application

Oct 2021 – Apr 2022

Taibah University, Madinah

- Developed an appointment reservation application using Java and MySQL to simplify booking management.
- Led the development of the project end-to-end, designing and implementing all technical aspects.
- Improved scheduling efficiency and reduced the time required for manual booking management.

EXPERIENCE

Technical Support Specialist — Tamheer Program

Jan 2024 – Jul 2024

Digital Transformation Agency, Madinah Municipality

- Contributed to website development and produced database reports using Oracle and SQL Server, supporting system analysis efforts.
- Managed technical support reports and directed them to the appropriate personnel to ensure efficient issue resolution.
- Improved technical processes for Oracle-based municipal systems to enhance system stability and efficiency.
- Provided immediate technical support to users to maintain uninterrupted services.
- Collaborated with the team to improve the quality and efficiency of technical service delivery.
- Managed user accounts and access permissions through Active Directory.

- Prepared and configured employee devices, software, and domain access.
- Coordinated with technical teams to resolve advanced system and infrastructure issues.

EDUCATION

Bachelor's Degree in Computer Science
Taibah University

2022

SKILLS

IT & Systems Support: Active Directory, User & Access Management, Incident & Ticket Management, Hardware & Software Troubleshooting, Windows Administration, System Performance Monitoring, Oracle-Based Municipal Systems, SQL Server, Web Development, System Analysis, Documentation & Reporting

Software & AI Development: Python, FastAPI, LangGraph (multi-agent orchestration), React, TypeScript, Next.js, Docker, PostgreSQL, Vector Search / RAG (Qdrant), Java, MySQL, AWS Cloud Fundamentals, Oracle Fusion Cloud Applications

Soft Skills: Problem-solving and decision-making, effective communication, time management, teamwork and collaboration, quick learning and adaptability to new technologies

LANGUAGES

Arabic (Native) | English
